RUSH OF THE NIGHTHAWK.

Over a Creek Dam

hawks are found, some time during the may hear a strange, booming so like the rush of water over a creek dam. You will seek valuly for its cause until you see a nighthawk, with firmly set wings, diving earthward from the sky. It is a reckless performance, and you may suppose that the bird's object is suicide, but when within a few feet of the ground he will change his course and soar suddenly beavenward. At this moment you will hear the loud. humming noise, similar to that when

The nighthawk, or bullbat, as he is sometimes called, is confused with the whippoorwill, and little is known genof his real character. He is a bird of the sky, passing the day perched motionless on a limb in wooded regions or on the ground in the treeless tracts or even on housetops when he happens to make his home in the city.

Probably he will not change his perch during the day, but at nightfall he will spread his wings and soar out
